GARLAND B. GARRETT JR.  
SECRETARY

May 22, 1996

MEMORANDUM TO: J. D. Goins, P.E.  
Chief Engineer - Operations

FROM: *Berry G. Jenkins, Jr.*  
Berry G. Jenkins, Jr., P.E.  
Deputy Highway Administrator-Preconstruction

SUBJECT: Wildlife Viewing Area Signs

As we discussed in our meeting this morning, the Wildlife Resources Commission staff has recently advised Dr. Charles Bruton of the Planning and Environmental Branch staff that they have now identified locations that they request wildlife viewing signs be erected. As you may recall, the department, by letter dated December 16, 1991 from Secretary Thomas J. Harrelson, committed for N.C.D.O.T. to obtain and erect these signs. Our department has been awaiting specific sites to be identified since that time. Dr. Bruton will advise the Wildlife Resources Commission staff that we cannot begin this until our new budget year, which begins in July.

Attached are quantity sheets and various sketch maps showing general locations for these signs, types of signs, and specific individuals in some cases to whom we should deliver the signs and who will have them installed. I assume our local division staff will coordinate in each specific location with the local contact to identify exact site information and sign location.

I have discussed this with Mr. Lynch of the Traffic Engineering Branch and his staff will provide whatever assistance you need, particularly in obtaining the signs, etc. Funding will need to be out of each division's maintenance funds as advised by the State Highway Administrator

If this office can assist in any way, please advise.

BGJ/jr
